The Dana Collection Felt Baskets

No hardware here! Designed by Dana Bailey (B.F.A., fibers, SCAD), these ultra-modern felt baskets are stylish and functional storage accessories for home and office. (And the perfect home for those loose items you never know where to place.) Made with a single cut and no wasted material, baskets are available in three nestable styles. Choose from charcoal, teal and yellow. *Designer virgin merino wool felt.*

ABOUT DANA BAILEY

Bailey, a Pittsboro, North Carolina, native, first arrived at SCAD with an interest in fashion. Experimenting with different fabrics and materials, however, led her to the university's fibers program, one of the largest of its kind in the nation. Her love for textiles is showcased in her felt collection, which brings a soft and delicate, yet functional approach to everyday storage.

From flat to fab! Simply tuck tabs into corresponding cuts for quick and easy assembly.

Working Class Studio Puffy Frames

Designed by Ashley Olson (B.F.A., fibers, SCAD) and Cindy Barlow (M.F.A., interior design, SCAD), the Working Class Studio puffy frame is a stylish accent to any décor and is great for lightweight mirrors, corkboards, posters and more. Available in two sizes and six colors. *Cotton canvas and plush fiberfill.*

Durable elastic tabs on the back of each frame help hold your masterpieces in place securely.

The Tommie Collection Coat Rack

Finally—a clever solution to your over-stocked closet! This zipper-inspired coat rack—designed by Tommie Fullmer (M.A., furniture design, M.A., design management, SCAD)—is the perfect resting spot for jackets, hats, ties and other accouterments. Mounting template and hardware included. Choose from charcoal, orange and teal. Powder-coated aluminum.

ABOUT TOMMIE FULLMER

A native of Camanche, Iowa, Fullmer's passion for all things that pop led him to SCAD, where he pursued master of arts degrees in furniture design and design management. As a designer, Fullmer finds solving a client's needs while working within established constraints to be a rewarding challenge.

Each clock includes a reversible black and white face plate!

The Christy Collection Clock

Design should look sharp in any time zone. No numbers? No problem! Designed by Christy Batta (M.F.A., graphic design, SCAD), this modern-meets-minimalist clock features 12 staggered steps that spiral outward to denote the hour and minute. Hands, mounting template and hardware included. Available in black, mint, orange and violet. Requires one AA battery. Rigid ABS plastic.

The Katherine Collection Planter Set

Get ready to rock the boat on traditional indoor gardening. Designed by Katherine Mirabito (B.F.A., industrial design, SCAD), these playful weighted planters need only a gentle nudge to set them wobbling with delight. Packaged as a set of three assorted planters. *Resilient cast polyresin.*

ABOUT KATHERINE MIRABITO

As an industrial design student at SCAD, Mirabito uses her practical yet whimsical sensibilities to create products that make everyday life a little brighter. The concept for her planter collection came to the Apalachin, New York, native after she ran into her desk at home, knocking everything over—except a lone Weeble toy.

They weeble. They wobble. But can they twerk? Guess you'll have to find out for yourself.

The Nani Collection Vases

Designed by Nani Cabada (B.F.A., industrial design, SCAD), these sconce-style bud vases double as unexpected works of art and are a clever showcase for your favorite flowers and foliage. Curved wood and simple glass test tubes unite to form these sophisticated silhouettes. Available in two styles. Hardware included. *Reconstituted zebrawood, birch plywood and glass.*

Ah, the perks of being a wallflower. Hidden hardware may shy away from sight, but these vases have a seamless, modern look that really stands out.

The Corey Collection Vases

The Corey Collection vase uses an easy-to-assemble frame and an otherwise ordinary balloon to create a cheerful home accent like no other. Available in four classically inspired silhouettes, each packaged vase includes an assortment of colorful balloons. Designed by Corey Green (B.F.A., industrial design, SCAD). *Acrylic and latex balloons.*

Just add water! The balloon shrinks when your thirsty buds need a refill.

The Erica Collection Garden Critters

Garden pests ... or welcome guests? You decide! Introducing some critters you won't be shooing from your flower beds or indoor pots anytime soon. Designed by Erica Kelly (B.F.A., interior design, SCAD), each packaged assortment includes a lively menagerie of five unique garden stakes. *Powder-coated steel wire.*

ABOUT ERICA KELLY

Growing up in Orlando, Florida, the great outdoors were a big part of Kelly's life. As an interior design student at SCAD, Kelly loves designing lively environments that translate both inside and outside the home. Her whimsical garden critters make gardening creative and fun—no matter what color your thumb is.

Go ahead, lay it on me. I can take it. (Well, up to 20 pounds, anyway.) Made with sturdy corrugated plastic and a structurally sound design, these tables might weigh a little, but they can hold a lot.

The Carolina Collection Table

Don't let boring home décor bend you out of shape. Add pop to your living space—indoors and out—with this colorful accent table designed by Carolina Amu Trujillo (B.F.A., industrial design, SCAD). Simply unfold and connect the perforated interior panels and legs to create a truly modern statement in a snap. Available in black, orange, white and yellow. *Stain- and weather-resistant corrugated plastic.*

The Yan Collection Lamp

Brighten your day—or night—with the Yan Collection lamp. Designed by Yan Zhao (M.A., furniture design, SCAD), this lamp's sleek lines and angular frame are sure to help you see things in a whole new light. Ready (and easy!) to assemble, lamps are available with your choice of a red or black cloth-covered cord. Bulb not included. *Birch plywood and polystyrene.*

The Nicole Collection Planter Set

Designed by Nicole Runde (B.F.A., furniture design, SCAD), this unique planter set is a study in versatility. Not only is it aptly sized for small houseplants, cacti and herbs, it also doubles as an inventive office organizer. Stow pens and pencils, keep notes handy and in view, or use as a pair of smart, eco-chic bookends. Includes removable/washable polystyrene inserts. *High-density cork.*

← Plants or pencils? Succulents or Sharpies? You decide. Use as bookends, planters and more. Go wild!

Choose from three designs with two styles each. Hidden zipper closure, flanged border and solid back. *Machine-washable outdoor canvas. Insert sold separately.*

We give a hoot and so should you! Our polyfill outdoor inserts are filled with recycled fiber made from soda bottles.

Working Class Studio Paper Placemats

Huff and puff all you want, but we think our paper placemats are pretty darn cute. Designed to turn dinnertime into story time, these four collections bring to the table fairy tale-inspired fun that even the pickiest of eaters will adore. (Four out of five mad hatters agree.) Each unique collection is available in a 45-sheet pad containing a collated assortment of three coordinating designs. Choose from Alice in Wonderland, Goldilocks, Little Red Riding Hood and Three Little Pigs. Designs by various SCAD artists. Printed on recycled paper with food-safe soy ink.

The Kelly Collection Kitchen Accessories

Whether you're a pop culture buff or just a foodie with a sweet tooth for clever wordplay, this kitchen collection—designed by Kelly Stewart (M.A., illustration design, SCAD)—will have you in stitches. Each food-inspired design boils over with wit, referencing everything from popular movies and viral videos to Top 40 classics and one-hit wonders.

Both kitchen accessories collections feature three complementary tea towel designs. Sold individually, each tea towel is made of machine-washable woven cotton.

With a dash of whimsy, a pinch of sass and a heaping cup of playful humor, the Meg and Kelly collections have all the right ingredients to help bring a smile (or a smirk) to a kitchen near you.

The Meg Collection Kitchen Accessories

Salt and pepper. Peas and carrots. Some things are just made for each other. Illustrated in delicious detail by Meg Sutton (B.F.A., graphic design, SCAD), this soulful kitchen accessory and stationery collection depicts two of the South's most popular culinary couples: the savory-sweet pairing of fried chicken and waffles and the Lowcountry's favorite of shrimp and grits.

The Savannah Paisley Collection

Retire your outdated paisley prints to the attic and unfold the Savannah Paisley Collection. Vibrant magnolia blossoms, peaches and pineapples joyfully converge to form this cheerful Savannah-inspired assortment designed by Samantha Carlberg (B.F.A., illustration, SCAD). In addition to the collection's paisley print aprons, oven mitts and pot holders, tea towel sets include a painterly stripe coordinate.

All Working Class Studio kitchen collections are made with durable, machine-washable cotton twill. We know making a mess is easy. Shouldn't the cleanup be as well?

The Hostess Collection

Featuring two mesmerizing patterns designed by John Hiemenz (B.F.A., graphic design; M.A., advertising, SCAD) and Abby Hyslop (B.F.A., fibers, SCAD), the Hostess Collection—complete with aprons, oven mitts, pot holders and tea towels—will inspire and delight even the most gracious of hosts with its bold Moroccan-inspired florals and lively palette.

All kitchen collections include a five-piece gift set complete with an apron, oven mitt, pot holder and two tea towels. Great as a gift ... or to keep for yourself!

The Savannah Toile Collection

Bring all the sugar and spice of the Hostess City to your kitchen with the Savannah Toile Collection. Designed by Morena Guzman (M.F.A., fibers, M.F.A., industrial design, SCAD), this Working Class Studio fan-favorite features scenes from the Spanish moss-draped squares of historic Savannah, Georgia, and has you and your kitchen covered.

A messy kitchen might be the sign of a good meal, but who looks cute covered in spaghetti sauce? (Um, no one.) With Working Class Studio kitchen collection aprons, you can simmer, sift, boil and bake to your heart's delight without fear.

The Bacon 'n' Eggs Collection

With a farm-fresh mix of savory patterns, the Bacon 'n' Eggs Collection will add sizzle and pop to your plate. Designed by Piet Aukeman (B.F.A., graphic design, SCAD) and Caleigh Clawson (B.F.A., graphic design, SCAD), aprons, oven mitts and pot holders are available in three designs. The collection's complementary two-piece tea towel sets include a plaid coordinate.

Bring home the bacon ... and so much more. These oven mitts feature an interior farmhouse plaid lining that matches the collection's tea towel coordinate. (Now that's something to crow about!)

The Tran Collection Note Cards
